**RENEWED PETITION UNDER 37 CFR 1.181
FOR WITHDRAWAL OF ABANDONMENT**

Assistant Commissioner for Patents
Washington, D.C. 20231

Sir:

This is responsive to the Decision on Petition Under 37 CFR 1.181 mailed July 1, 2002. A Request for Extension of Time for One Month is submitted herewith.

Applicant received a Notice of Abandonment mailed November 19, 2002. The Notice states that Applicant did not respond to the Notification of Missing Requirements in a timely manner. However, the Applicant never received the Notice of Missing Requirements. Applicant filed a Request to Withdrawal of Abandonment on 21 May 2003 (the 'Request'), which the Decision denied. This Renewed Petition incorporates the facts and arguments set forth in the Request, and addresses the deficiencies of the Request.

Specifically, as outlined in the Decision, a proper showing to establish that papers were never received must include: (1) a statement by the practitioner that the Office action was not received by the practitioner; (2) a statement attesting that a search of the file jacket and docket records indicates that the Office action was not received; and (3) a copy of the docket record where the non-received Office action would have been entered had it been received (the docket record must also be referenced in practitioner's statement).

It has been requested that Applicant provide a statement attesting that a search of the file jacket and docket records has been performed, and that the search indicates that the Applicant did not receive the Notice of Missing Requirements. It has also been requested that Applicant provide a more complete docket record for March 8, 2002, sufficient to

establish that the Notification of Missing Requirements was not received and mis-docketed to another location.

Under the firm docketing system, upon the filing of a new U.S. application, a three-month docketing date is generated to confirm receipt of official notification of filing from the U.S. Patent Office. Should a Notification of Missing Requirements be received prior to expiration of this three-month date, it is immediately docketed for a two-month response, taking into consideration the possible extensions of time available for up to six months. I attest that a search of the file jacket and docket records indicates that a Notification of Missing Requirements for Application No. 09/980,352 was never received, and that this docketing system is accurate. Attached is a complete copy of our docketing record for March 8, 2002, indicating all applications for which a response was due on that date. This docketing record shows that we never received the Notice of Missing Requirements.

In view of the foregoing, Applicant respectfully requests that upon reconsideration of this petition on the merits, the Notice of Abandonment be withdrawn.

Please debit Deposit Account No. 13-3080 for any required petition fee.

Respectfully submitted,

Timothy M. Kelley
